

STRONG LINE-UP FOR SALE OF XMAS SEALS

\$1,000 IS GOAL OF CAMPAIGN
FROM DECEMBER 1 TO 10

Ninety-one Per Cent of Money to Sta.
In State for Public Health Work
—Parkey Is State Chairman.

With the goal of December 1, 1930, of the 1,000,000 seals of inspection, now being sold in the state of New Mexico, will not this nation, in its support for public health work within its states, become the champion of tuberculosis? It is the champion of health, of education, and of all maternal workers. The funds so much needed to save the human race are to carry on a most important program of health protection before the year is over.

The chief purpose for selling the seals will be the sale of Red Cross Christmas seals. These 10-cent pieces of religious character have been sold in New Mexico for the past eight years. This year, the New Mexico Public Health Association, state agent for the campaign, to achieve a goal which is greater than all the other years combined, seven million seals have been prepared at state headquarters by Albuquerque for distribution over New Mexico. These are to be sold at a cent apiece, a penny's worth of protection and care.

Money Starts In State.

In addition to being the greatest success in the history of the state, the 1930 campaign is notable in that 97 per cent of the money raised will remain within the state, the remainder going to defray administrative expenses and to assist the National Tuberculosis Association in its various service activities throughout in all parts of the country.

The health program which the association has outlined consists first of the employment of six public health nurses who would be available for demonstrations or house calls of the sick and would be able to assist in nursing work during an epidemic such as the influenza and smallpox killer. They would also direct services to find the health assets of the state. They could be utilized at any point to meet a localized epidemic. One would be a specialist in school work and would be in charge of the Modern Health Campaign which is planned on route by the association. Another would be detailed to follow up New Mexico tubercular sufferers and to assist them in finding medical services from the agency for disease control.

Lectures On Health Program.

The management of this following program is entrusted to the board of directors, one pound each principally in finance, smaller contributions, but could also be given to start it with illustrations to show a plan of safeguarding health. The other would be used to help in English. Preparation is made for educational work, for the subscription or suitable literature in all necessary languages, after financing the Modern Health Campaign. The portion of money which will be spent for administrative services is eight per cent of the total, which below the usual figure to work of this kind.

The drive is to open December 1 and continue ten days. Special events in a number of churches on Sunday, November 20, will dramatize the launching of the campaign. Slides in motion picture theaters throughout the state will show the progress of the Christmas seal sale over New Mexico.

THE STAND FOR HEALTH

The destructive battle against tuberculosis and other preventable diseases must now be concentrated again. The story of the ants who carried away a mosquito is too familiar to need repetition. We know the wisdom of a united stand.

War records show that out of every 1,000 men of draft age examined, 23 were rejected because of tuberculosis. New Mexico had its share of sufferers from this disease. Nearly three hundred boys from this state were sent home from camp because of a tubercular condition. There selected were not mainly descendants of men or women who came to the state already affected. Many were born and raised here. Their parents were done in by Asiatic and Spanish and Leprosy. Tuberculosis is no respecter of ancestry.

There is little to compare in the pull of the New Mexico Public Health Association for tobacco seals, which in this preventable disease, health health to the schools, and see a need for a stronger type of service, strengthen their bodies, never bottoms better health.

Money has been given for tubercular babies, for blessing, Begging, for starting school. It is not time to rest, to charity, but begin at home! Study one per cent of the money raised between December 1 and 10 running within New Mexico for this task, to prevent tuberculosis. It does double duty. It builds for generations to come. It does triple duty. Each Red Cross Christmas seal carries a message of hope of "peace on earth, good will toward man" to any part of any country. Each seal is a penny's worth of prevention and care. Buy your Christmas seal this year for better health in New Mexico.

Many Young Men and Women Offer Themselves For Christian Service

Southern Baptists Will Have Ample Working Force for New Program—Campaign Hopes to Strengthen Local Churches and Win 2,000,000 Lost to Christ During Next Five Years.

Group of Young Women Volunteers, Carolina Branch of Baptist Union Preparing Themselves for Special Training School, Fort Worth, Texas.

Probably the most encouraging development that has come to the Baptist Union Convention is the large number of young men and women throughout the South and Southwest who are giving their services to the cause of Christ. A special day was set aside in the Baptist schools and colleges for calling out the youth and it was expected to secure 2,000 additional volunteers. As of this date, however, this number has not been reached. It was held, if the record of individual efforts is anything to go by, that the campaign was successful. Reports from these schools and colleges show that with the planned work, 100,000 more will reach the goal.

There is a desire to increase the number of young men and women who are giving their services to the cause of Christ. Schools and colleges throughout the country are enrolling in the campaign. The number of students in the Sunday Schools of the South and Southwest, win 2,000,000 additional souls to the cause of Christ during the next five years; bring the Baptist church membership in the South to 5,000,000 and enlist all those in all forms of church work; increase the number of Baptist churches in the South to 40,000, and enroll 40,000 young men and women in the denomination's schools where they will prepare themselves for lives of Christian usefulness in their communities or for service in any part of the world where they may be needed.

While it is the hope to raise \$75,000,000 in the United States in the larger program of Christian service which gave the campaign its name, raising the money is only one of the objects sought. Baptists are being implored to give themselves and all of their talents as well as their money to God. Director Scarborough announces:

Will You Be One OF A Million Workers To Secure Members for The American Red Cross

**Volunteer Now At Your
Chapter Headquarters
Third Red Cross Roll Call
November 2-11**

AROUND THE WORLD WITH THE AMERICAN RED CROSS.

Junior Red Cross.

Early in the participation of the United States in the world war, the American Red Cross perceived the value of mobilizing the school children of the country and the Junior Red Cross was organized. Before the war ended nine million children were enrolled and helped in the war fund and membership campaigns, in chapter production of relief supplies and manufacturing furniture for the refugees whose homes and household goods were destroyed.

Children everywhere in the United States responded to the call to serve sounded by President Wilson as head of the American Red Cross. This photograph is that of an enthusiastic young Japanese member of the Junior Red Cross of Spokane, Wash., starting out on the ambitious undertaking of collecting "a mile of pennies" for war relief. A comprehensive peace program is now being worked out for the Junior Red Cross, which is being held intact.

HER FAMILY TO HER BEDSIDE

Six Years Ago, Thinking She Might Die, Says Texas Lady, But Now
She Is a Well, Strong Woman and Praises Cardui For
Her Recovery.

Royse City, Tex.—Mrs. Mary Killman, of this place, says: "After the birth of my little girl...my side commenced to hurt me. I had to go back to bed. We called the doctor. He treated me...but I got no better. I got worse and worse until the misery was unbearable...I was in bed for three months and suffered such agony that I was just drawn up in a knot...the better. That was six years ago and I am still here and am a well strong woman, and I owe my life to Cardui. I had only taken half the bottle when I began to feel better. The misery in my side got less...I continued right on taking the Cardui until I had taken three bottles and I did not need any more for I was well and never felt better in my life...I have never had any trouble from that day to this."

Do you suffer from headache, backache, pains in sides, or other discomforts, each month? Or do you feel weak, nervous and fagged-out? If so, give Cardui, the woman's tonic, a trial.
